## PRODUCT DESCRIPTION OF THE ACTIVITIES IN RESUME.

There is an area around Otjiwarongo known as Cheetah world. Two famous cheetah sanctuaries are found and are located in this area. Namibia has the largest population of cheetahs which are approximately 3000 in the country. The other attraction is the Waterberg Mountain/Plateau and National Park and some of the very big privately owned game parks are found in this area. Tsumeb in Oshikoto is the gateway to the Etosha National Park and the mining town in the area and in addition is also famous for the semi-precious mineral stones which are found in big numbers as well in the same surroundings. Other highlight is the fascinating and famous two lakes, namely, Guinas Lake and the more popular Otjikoto Lake are also found some 20kms north from Tsumeb on the B1 Trans-Angola National Highway on the way to Etosha National Park.

The activities are found in the three Regions of the Land of the Brave, namely, Khomas(Windhoek), Otjozondjupa (Otjiwarongo) and Kunene (Outjo & Etosha). The characteristics of the city and towns en route this trip, in a nutshell, are as follows: Windhoek is the capital of the Khomas Region and of the country. Okahandja is known for the historic developments which took place in/or around the town and is referred to and regarded as the garden town of the country. Other attraction is the Open Air Street Craft Market. Otjiwarongo is the economic hub and administrative Capital of the Otjozondjupa Region.

Next area to be visited is the southern western part of Damaraland. The iconic and famous Brandberg Massif in Inselberg in the Namib gravel plains, with the highest peak in Namibia known as Koenigsberg which is 2573m above sea level is found in this area. Brandberg is also famous for bushman rock art works of which the white Lady is more famous. Some parts of Damaraland are famous for Desert adapted animals which include, inter alia, but not limited to, Elephants, Rhinos, Lions, Giraffes and others just to mention but few. Other highlights and famous places of attractions are also found in this area, however, the flagship and the most famous attraction without doubt is the iconic Twyfelfontein. Twyfelfontein is famous for Bushman Rock Paintings and Engravings. It is known and regarded as the world's largest concentration of rock Art paintings. The age of the rock art viz paintings and engravings are fluctuating anything between 1000 & 10 000 years and is believed to be numbering approximately 2500.

## PRODUCT DESCRIPTION OF THE ACTIVITIES IN RESUME.

the oldest desert on earth with some of the highest and breathtaking Dunes in the world. The Namib Sand Sea is the second UNESCO World Heritage Site in Namibia. Namibia was accorded this recognition by the Convention in 2013. The above mentioned area is located in the famous Namib Naukluft Park. The idea behind the establishment of the initial portion of the park, when created, was to conserve the fauna and flora around the coastal towns and areas covering the Namib gravel Plains and was thus proclaimed in 1968 as The Namib Desert Park. Following the developments leading up to the proclamation and the Amalgamation, [Namib Desert Park & Naukluft Mountain Zebra Park, the idea with this Park was to create a sanctuary to safeguard the rare and endangered Hartmann's mountain Zebra.].

It was declared in 2007 by the Convention as the first UNESCO World Heritage Site in Namibia. The route will take us to the Central coastal areas including a short visit to Cape Cross, one of the biggest Seal Reserve, in the Dorob National Park close to Henties Bay. We will thereafter proceed to the Namib Sand Sea. One of the main attraction and highlight of the tour is the visit to Sossusvlei which is in the heart of the Namib Sand Sea located in the Namib Desert,

[VIEW MAP](#)

Portions of land bought from farmers were added to form part of the park. This amalgamated area serves as continuous conservation known as Namib- Naukluft Park with the size of 23 340sqm. Portions of Diamond areas 1 and 2 were added in 1986 to the mentioned part increasing the size of the Park to colossal 49 768sqkm making it the third largest park in Africa. Our last leg of the tour will follow the road via Spreetshoogte Pass, the deepest in the country, ascending from the Namib desert side back to Windhoek in the Central Khomas Highlands/Plateau which lies approximately 1000m above sea level. Driving through the Spreetshoogte Pass offers spectacular views from the top to the bottom. This is a rarity and is a paradise for nature lovers and photographers. We will connect with Rehoboth and reach our end destination in Windhoek.
